MENUS

A modern user interface is easier to follow than the classic green screen.
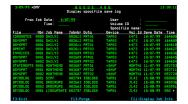

REPORTS

Interactive reports with lists, charts and graphs allow you to make informed business decisions with increased accuracy and real time access to operational data.
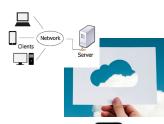

INQUIRIES

Searching for the information that you need is showcased in a digestible format.

INFRASTRUCTURE

With World, AS400 is your ONLY option. With EnterpriseOne, you have options: Cloud or Client-Server Network. It's your choice of DB, Platform, and OS.

MOBILITY

You have the flexibility to access EnterpriseOne from any location via a number of devices.

SUPPORT

With World, internal IT support is dependent on location and being on-site.
With EnterpriseOne, internal cloud support can be from anywhere; an office, a remote location, or across the globe.

The future is digital. Book a complimentary consultation with us to learn how your JD Edwards investment can better your business for the future.
