

iSP³ Why choose us for your managed services?

Get the maximum value from your ERP.

CNC/Technical & Functional Application Managed Services can cut IT costs by approx.

40%

and double the efficiency of operations

Since 2001, we have been focused on delivering quality services and solutions to JD Edwards customers. Keeping your system up to date and working efficiently is a breeze with **iSP³'s CNC/Technical and Functional Application Managed Services**. With our fill your bucket approach, you get to stay one step ahead on your priorities while we give you support when and how you need it.

You'll get:

- A partner who actually runs JD Edwards internally and understands your needs
- A qualified, industry-trained, and up to date certified roster of expertise
- Direct contact with consultants supporting you for continuity purposes
- CNC on going maintenance to minimize JDE infrastructure downtime
- Functional support to resolve daily issues as they arise

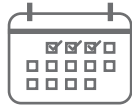

FILL YOUR BUCKET	PAY PER MONTH	PLAN AHEAD
Purchase a monthly bucket of Fixed Hours by area  <i>Example: 40 hours</i>	Monthly charge of \$5,600* <i>\$67,200 annually for CNC or Application Managed Services</i> 	"X" number of unused hours can be put towards project activities  <small>*Depending on number of committed hours</small>
